- Self-Adhesive
- UV Stable
- BBA Approved
- 50 Year Life Expectancy
- 10m x 1m x 2.5mm Rolls
- Can Be Used To Overlay Existing Roofing
- Rapid Installation – Sealed For Life

A new addition to our family of waterproof membranes we welcome “RESITRIX”. This self-adhesive EPDM system is ideal for flat roofing and gutter lining. Resitrix is a heat welded, reinforced membrane, which is ideal for overlaying existing roofing, often without the need to strip back. Never before has it been so simple and safe to apply a high performance waterproofing system with virtually unlimited application options while guaranteeing a flexibility.
